Staff

AI,

FYI -- I have called the program
managers' attention to the [redacted]

25X1 September 1984 study [redacted]
25X1 [redacted] and asked them
to determine which initiatives they could
accommodate in their 1985 and 1986
programs. The study also recommends a
number of steps for the Security Committee
to take. I would appreciate your looking
into those.
